What Our Customers are Saying

“I want to take this opportunity to express our gratitude with regard to PELMAC’s excellence of service, commitment, and results. In particular, I want to mention that the technicians are polite, professional, and seamless in their ability to work around the sudden obstacles that happen in our business environment.”

-Leonard Mannino, Director of Security, NH Lottery Commission

“I wanted to take a moment to let you know how thankful we are for the good work your company did here over the last 6 months. I know it was a long project but it has been totally worth it. Our CEO and employees are extremely pleased with the security upgrades. In particular I would like to point out Chris and Brian’s time here. They were always professional, on time and extremely helpful to us. They did yeoman’s work to retrofit this building.”

-Rick

“First just let me say that I knew Ken had a very full day to include several stops at our locations...Ken did everything quickly and efficiently and he has always conducted himself in a professional manner as long as I have known him. He is polite, knowledgeable and always has the customers best interest in mind. All your technicians do a good job, but when Ken shows up I know I am getting one of the best Pelmac has to offer.”

-Mike N.

“I wanted to send a note regarding the alarm installation at my business on 12/27/16. The installers were Chris Pellerin and Brian. I wanted to tell you how impressed I was with their professionalism and knowledge of their trade. Chris was the lead so most of the questions and answers were directed towards him. He explained what they were doing and how it was to work. They did it with confidence and accuracy which we are very pleased. Give them a pat on the back and a job well done.”

-Ron Jawidzik, Auto Ally

“The installation was performed with no interruptions, the techs were professional and did a great job. They explained everything to me and all devices have been working well after relocating one sensor that was giving us some false alarms once the cold weather started. Very pleased with the install, equipment, and service.”

-Anonymous

“Your staff was excellent and provided professional service. He was very quick and efficient and identified our issues and seems to have addressed them all. The system is running well.”

- Jeff Gagnon, Office Alternatives LLC
